

Java Enterprise Edition

Java SE vs Java EE

- Java Standard Edition (SE)
 - Many general and special purpose classes, and APIs for “desktop” programs
- Java Enterprise Edition (EE) —> Jakarta EE
 - Set of specifications for enterprise distributed and multi-tier computing
 - Current version extends Java SE 8
 - Server programming in Java
 - Implementations of the set of Java EE specifications are called Java application servers

SE and EE Components

~~Java~~ EE Technologies

Jakarta

- Java Database Connectivity (JDBC)
- Java Remote Method Invocation (RMI)
- Java Message Service (JMS)
