CSci 363 – User Interface Design Term Project Report
December 11, 2024

Abstract The abstract and report is to be typed in either Arial or Times Roman font. The title must be in font size 14 point and bold. The name, course title, and date must be in font size 11 point. The title, name, course title, and date should be centered, and the body of the abstract justified on both sides. The body of the abstract must be in either font size 10 points. The word “Abstract” must be bold. The abstract must be a short description of the project. The abstract should be 100 and 150 words. The report must be 5 – 10 page, double space, 11pt Arial, or Times Roman font. The heading of each section must be sequentially numbered and bold.

1. Introduction

- 1.1 General description of the project
- 1.2 The assigned specification (use the project document)
- 1.3 The expected deliverables

2. Background

- 2.1 The theoretical topics
- 2.2 The models used
- 2.3 The methodology used (Model-driven, high-fidelity prototype)

3. The Project

- 3.1 Description of the work done
- 3.2 Description of models developed (examples)
- 3.3 Description of graphical user interface (examples)
- 3.4 Description of main GUI principles and guidelines followed
- 3.5 Description of problems encountered and their resolution

4. Conclusion

- 4.1 Statement of what was learnt
- 4.2 Statement of what was useful and what was not useful
- 4.3 Statement of what could be improved

5. References

- 1. Authors name(s), *Title of Article or Book*, Name of Journal for Journal Article, Publisher's name, Date **NO url-address**

6. Appendix

- 1. Presentation slides
- 2. All models developed for the project
- 3. All interface screens
- 4. Instructions for using your application (User's Manual)

Project Report uploaded as a single pdf file.
Project code file (Visual Studio C# project file)
Both files uploaded to Blackboard as a single zip file.
