Absence From Campus

1. Monday 11/11 – Veterans Day (No class)
2. Wednesday 11/13 – Recorded Lecture
3. Friday 11/15 – Virtual Lecture
4. Monday 11/18 – In-Classroom Assignment
for on-campus students. Online students
must complete assignment anytime in a 24-
hour period (11/18 start-of-day – end-of-day).

Communication and Collaboration

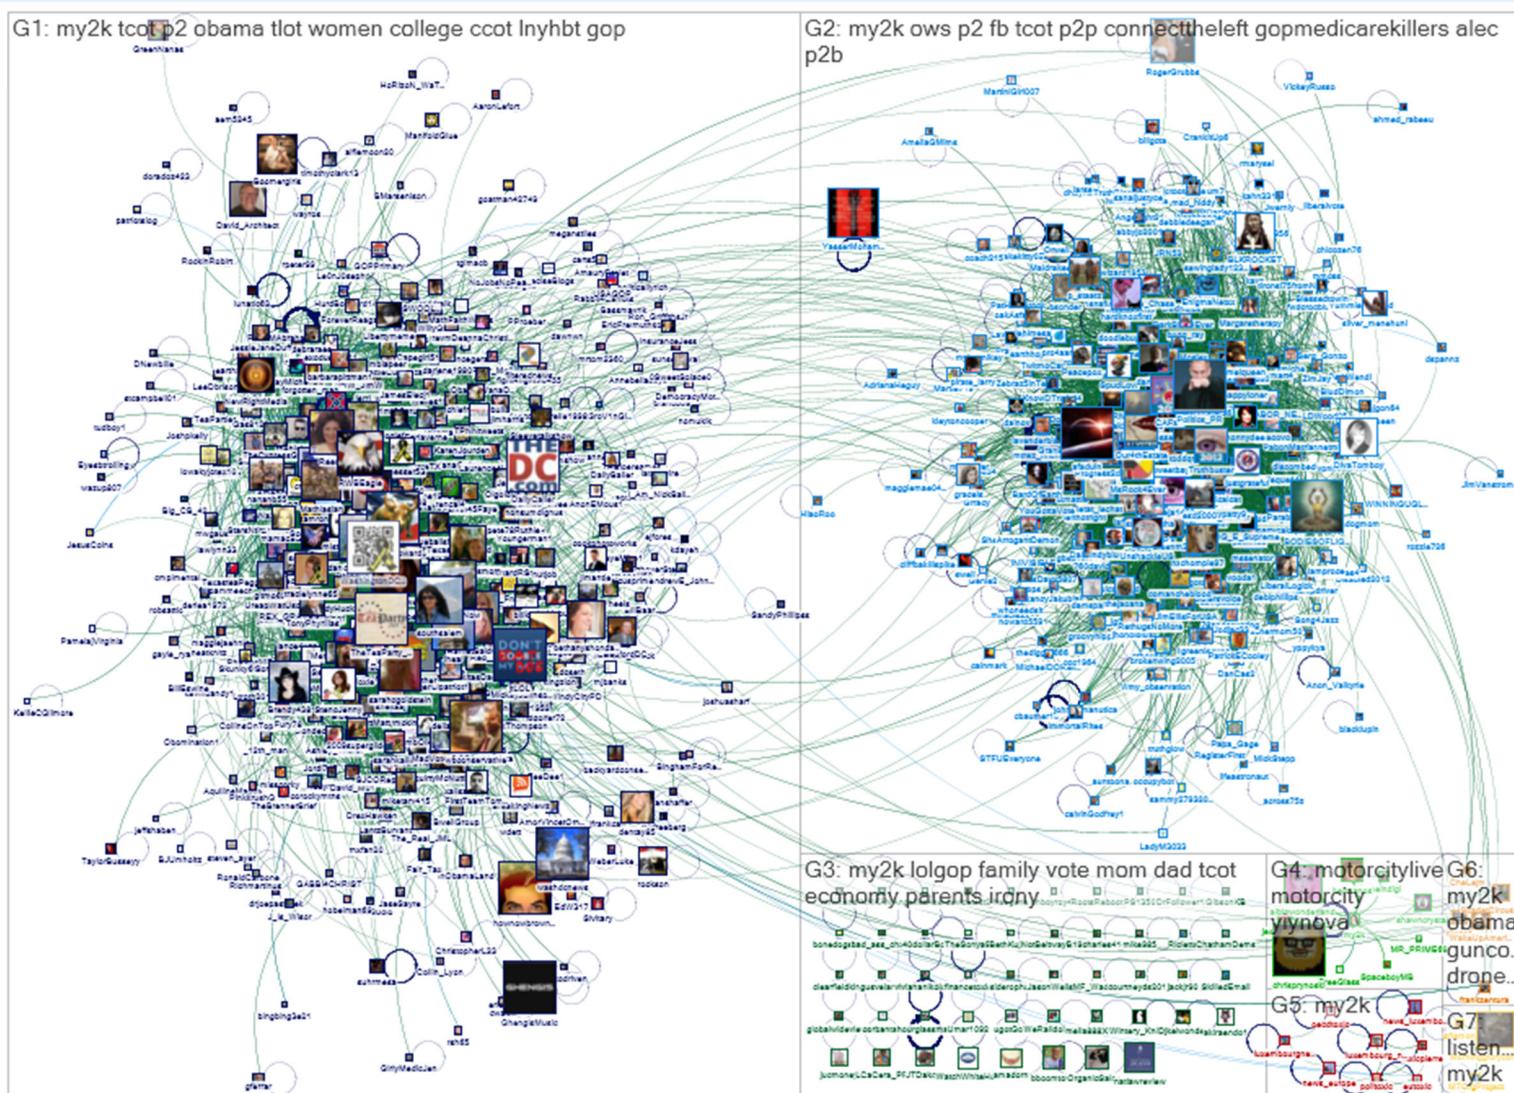

Topics

- 1. Introduction**
- 2. Models of Collaboration**
- 3. Specific Goals and Contexts**
- 4. Design Consideration**

Introduction

- Constant and immediate communication and interaction with family, friends, collaborators, colleagues, coworkers, and even pets is now commonplace in the increasingly networked world!
 - Social networks, newsfeeds, alerts and have become part of our daily lives
 - Designers need to consider the downsides and negative exigencies of such systems
 - Communication and collaboration tools shape the ability to work and accomplish shared goals with one another
 - Design for these systems can be more complex than single-user interfaces because of its far-reaching, networked, and social aspects

Introduction (concluded)

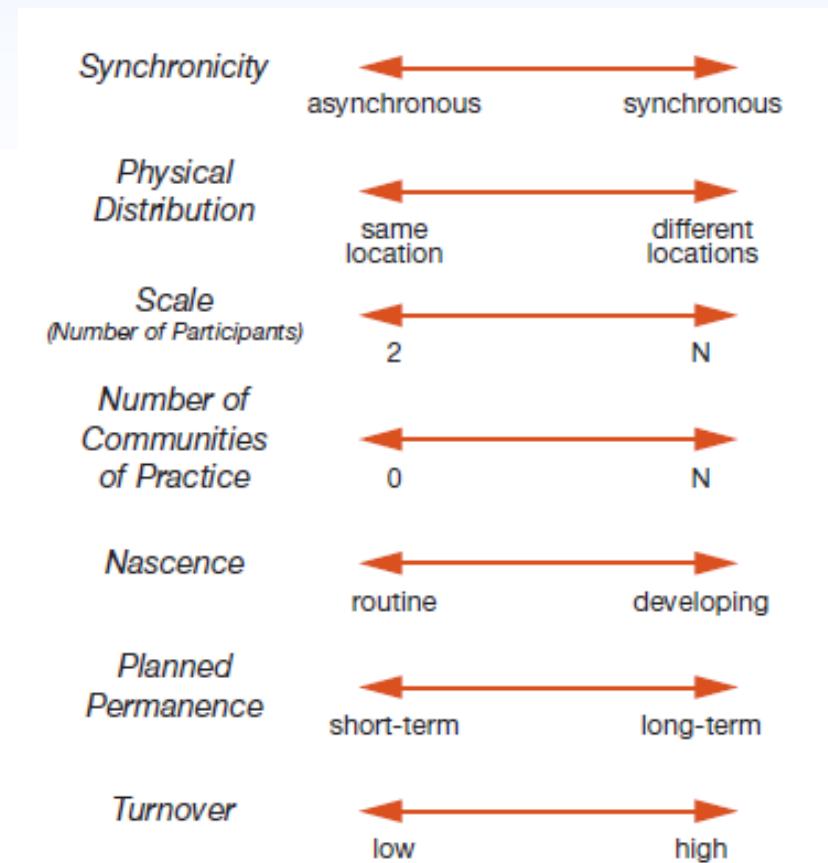

- A network map made with NodeXL software shows the polarized nature of the conversation on Twitter around the #My2k hashtag that emerge over U.S. budget struggles in 2012
<https://nodexlgraphgallery.org/Pages/Graph.aspx?graphID=2272>

Models of Collaboration

- Consider a typical day for a digital native:
 - wake up
 - check social networking accounts to get the latest news
 - go to work and collaboratively edit a report
 - chat with an office colleague about the new intern
 - post a question to a Q/A site about a statistical test needed to complete the report
 - on the way out of the office text message a significant other to coordinate dinner plans
 - after dinner receive a crowd-based recommendation for a movie to watch
- Each of these activities hinges on communication
- Discussion:
 - Which of these daily activities is more similar and more different from a design point of view?

Models of Collaboration (continued)

- The seven dimensions of the Model of Coordinated Action (MoCA) model
[Lee and Paine, 2015]

Models of Collaboration (continued)

The screenshot shows a Google Docs interface with the title "DTUI6 Rolling agenda". The document contains two main sections: "Agenda:" and "Meeting:". The "Agenda:" section lists several items with bullet points, some of which have sub-points. The "Meeting:" section lists "Present: Steve, Maxine, Catherine, Ben, Niklas, Nick" and then details about chapter delivery and fixes. A sidebar on the right shows a chat window titled "(4) Catherine Plaisant, Maxine" with a message from "me" at 1:44 PM: "It looks like we're converging on our Oct 16th deadline ... does anyone need any final input on figures?".

Agenda:

- calling instructions see below
- chapter status
 - 2 sets of chapters due Oct 16
- delivery
 - naming conventions
 - folders with figures
 - update table of contents
 - update spreadsheet
 - note to maxine when ready
- references dois???, sample roadmap???, quotes (no change)
- art work update
- flyer - improved, still at <http://hcil2.cs.umd.edu/DTUI6/>
- figures
- publisher info
- Topics we dont cover??? robots, affective UI

Meeting:

Present: Steve, Maxine, Catherine, Ben, Niklas, Nick

- Renumbering and delivery for October 16
 - Chapter 1 - ready to go (Ben)
 - Chapter 2 - ready to go (Ben)
 - Chapter 3 - ready to go (Ben)
 - Chapter 4 - ready to go (almost!) (Niklas)
 - Textbooks instead of research articles
 - New image - convergence/divergence, double diamond
 - Chapter 5 - fixing and cleaning up figures (Maxine)
 - Portable usability setup in high resolution
 - Catherine will try to help
 - Chapter 6 - almost ready to go (Steve)
 - Need new apple image (current too low res)
 - Chapter 8 - almost ready to go (Catherine)
 - Perfect! Niklas Eimquel well done
 - Will be

- **Synchronicity:** the Google Docs interface showing how multiple users can simultaneously be editing a document
 - Note that colored flags for different users offer concrete feedback that signals who is editing a particular part of the document
 - In the lower right corner a chat box invites users to synchronously converse with each other around the document

Models of Collaboration (concluded)

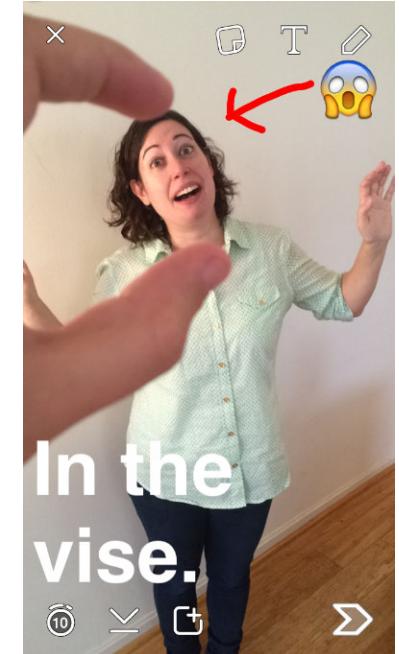

- **Nascence:** the degree to which coordinated actions are already established and routine, or if they are un-established, new, and developing
- **Planned Permanence:** some coordinated actions are shorter term, whereas others are longer term
- **Scale:** The number of participants involved
- **Number of Communities of Practice:** The types participants, e.g. multidisciplinary teams involved

- **Turnover:** Three example badges used in the DUST alternate reality game (<http://fallingdust.com>) to signal different achievements during collaborative play.

Specific Goals and Contexts

- People collaborate because doing so is satisfying or productive
- Collaboration allows individuals:
 - To reap the emotional rewards of socializing and interacting with others
 - To accomplish greater goals than they could alone
 - To meet and transact with people that they otherwise could not

- SnapChat is an app that allows for the composition of photos, doodles, and emoji's that when sent to friends can only be viewed from 1-10 seconds as shown by the small clock with the "10" in the left corner of the composition UI

Specific Goals and Contexts (continued)

- Communication and Conversation, e.g. SnapChat
- Online Markets, e.g. eBay
- Meeting Coordination, e.g. dating web sites
- Creative Production, e.g. GitHub version control
- Crowdsourcing and Crowdwork, e.g. restaurant reviews, e.g. sites to hire contractors
- Entertainment and Gaming, e.g. Massive Multiplayer Online Role-Playing Games (MMORPG)
- Education, e.g. Massive Open Online Courses (MOOC)

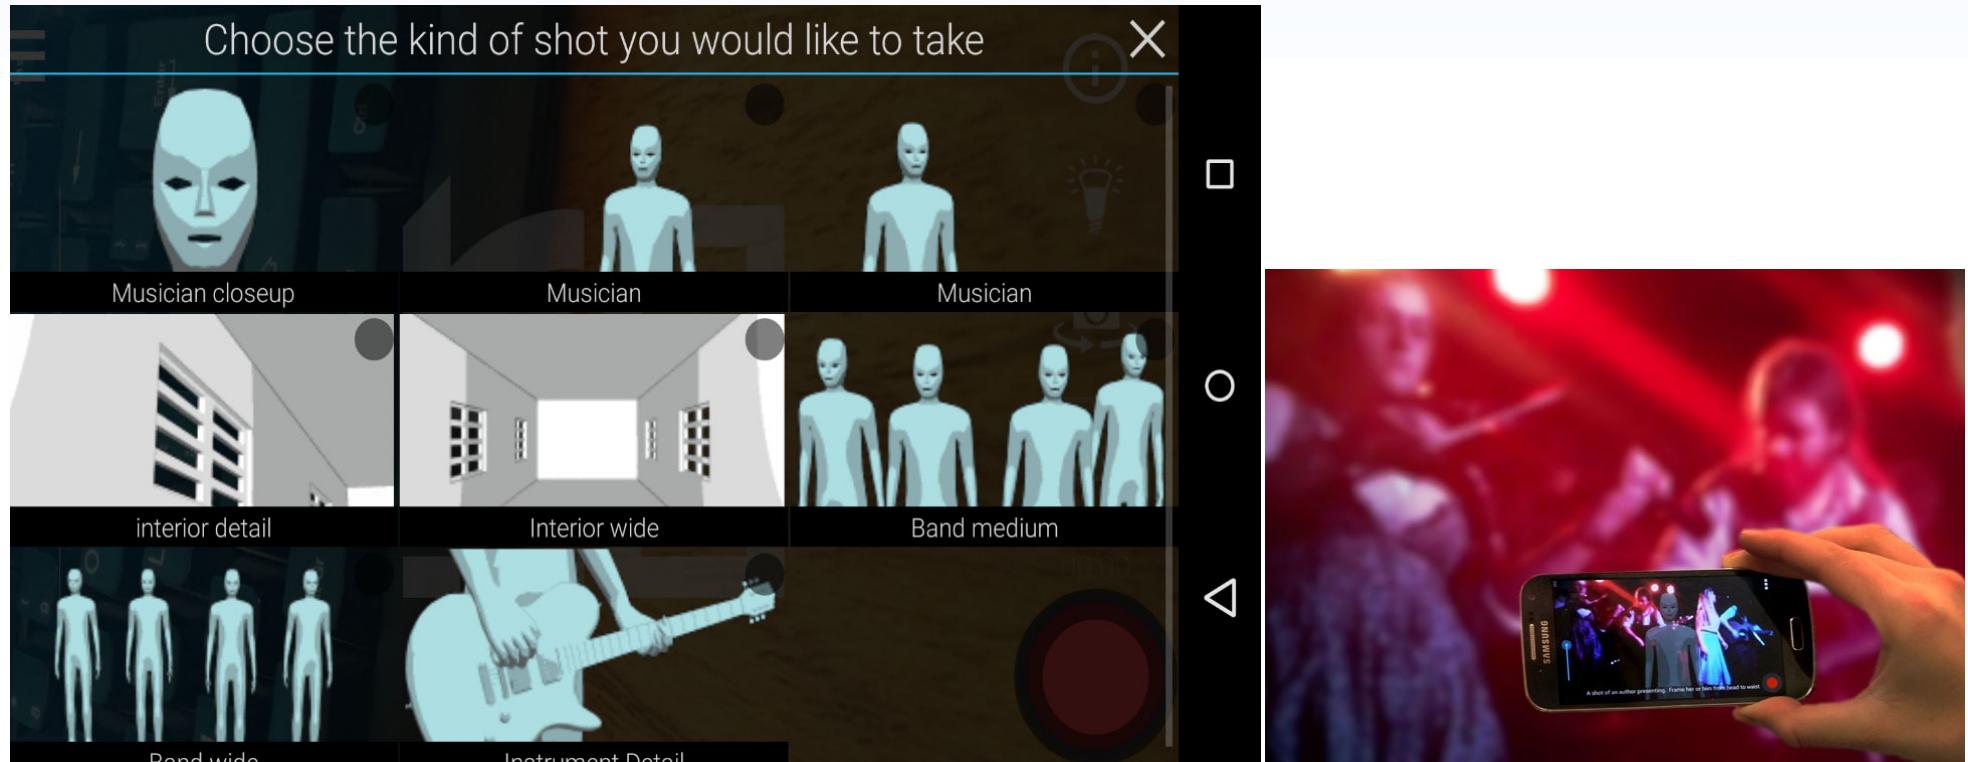

Specific Goals and Contexts (continued)

Dish	Price
Puree Of Grren Peas With Rice	0.25
Consomme Fleury	0.25
Tomato Soup Aux Croutons	0.25
Mock Turtle Soup	0.25
Cup, Hot Consomme	0.15
Cup, Cold Consomme	0.15
Broiled Fresh Mackerel And Stewed Potatoes In Cream	0.45
Fried Smelts, Sauce Tartare	0.5
Fried Scallops With Bacon	0.5
Marinirte herring And Boiled Potatoes	0.4
Beef A La Mode With Potato Dumplings	0.5
Lamb Stew With Vegetables	0.5
Hot Roast Beef Sandwich	0.35
Broiled Bone Sirloin Steak A La Nivernaise	1.0
Small Tenderloin Steak, Smothered Onions And Potatoes En Casserole	0.7
Shoulder Of Veal With Salad	0.5

- Historical 1906 menu from Fleischmann's Bakery digitized by the New York Public Library in collaboration with thousands of crowdsource volunteers who helped type in individual menu items
 - Note the UI list at right reflects and allows for navigation of items to be digitized

http://menus.nypl.org/menu_pages/5247

Specific Goals and Contexts (concluded)

- The Bootlegger app allows users to coordinate the creative production of videos around live events

Design Considerations

- Cognitive Factors
 - Common Ground
 - Social Cues
 - Activity Awareness
 - Interruptions
- Individual Factors
 - Privacy
 - Identity
 - Trust and Reputation
 - Motivation
 - Leadership
- Collective Factors
 - Deviance
 - Moderation
 - Policies and Norms

Design Considerations (continued)

Nick Diakopoulos @ndiakopoulos · Aug 6

Very interesting computational journalism tool from @FILWD's lab

Charles Ornstein @charlesornstein

To analyze Yelp's 1.3 million health reviews, we used an amazing tool built for us by @nyupoly. Details: enrico.bertini.io/revex

FAVORITES

7

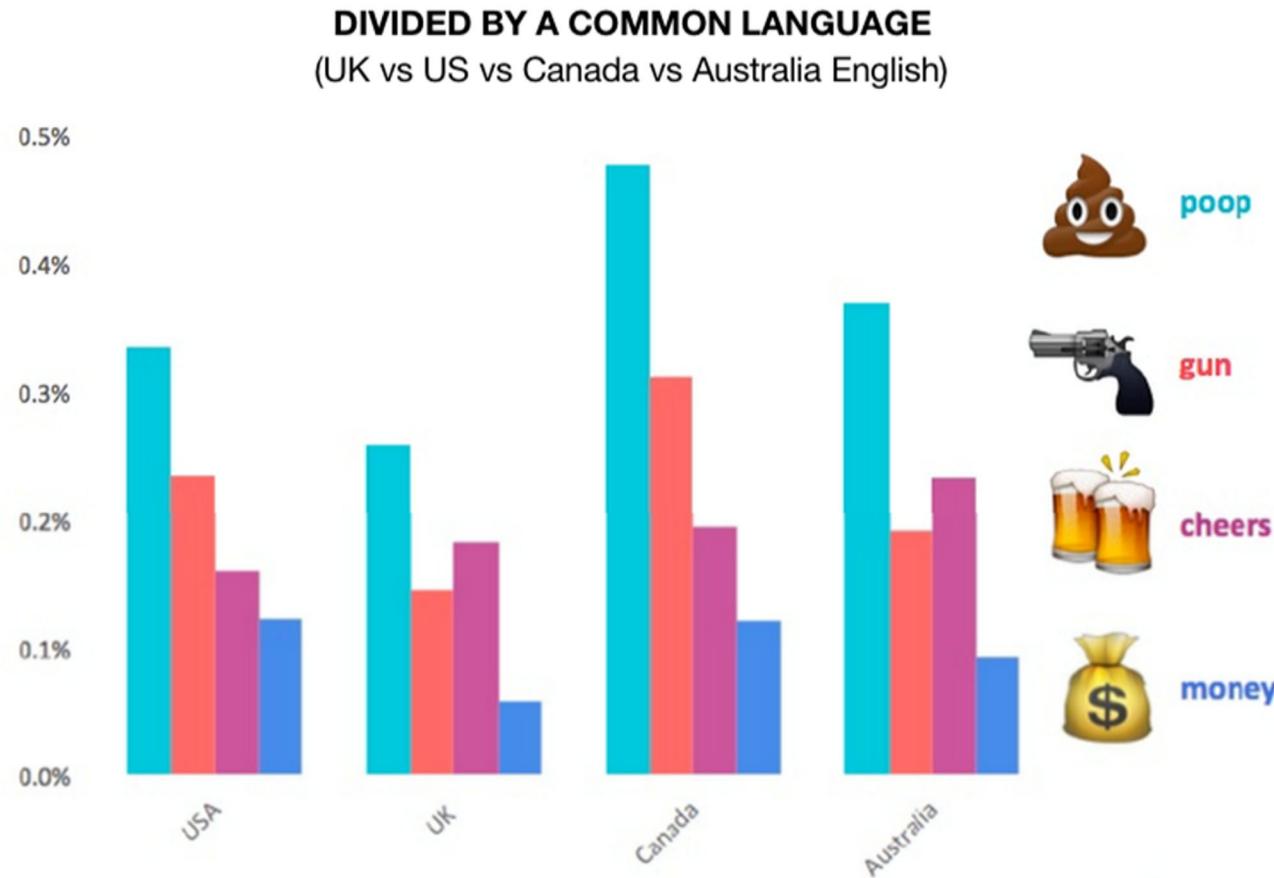

9:56 AM - 6 Aug 2015 · Details

- **Common Ground:** a tweet on Twitter can embed references in several ways, including referencing another person's account (i.e. @FILWD) as well as referencing and quoting another person's entire tweet, providing vital context and citation for the information

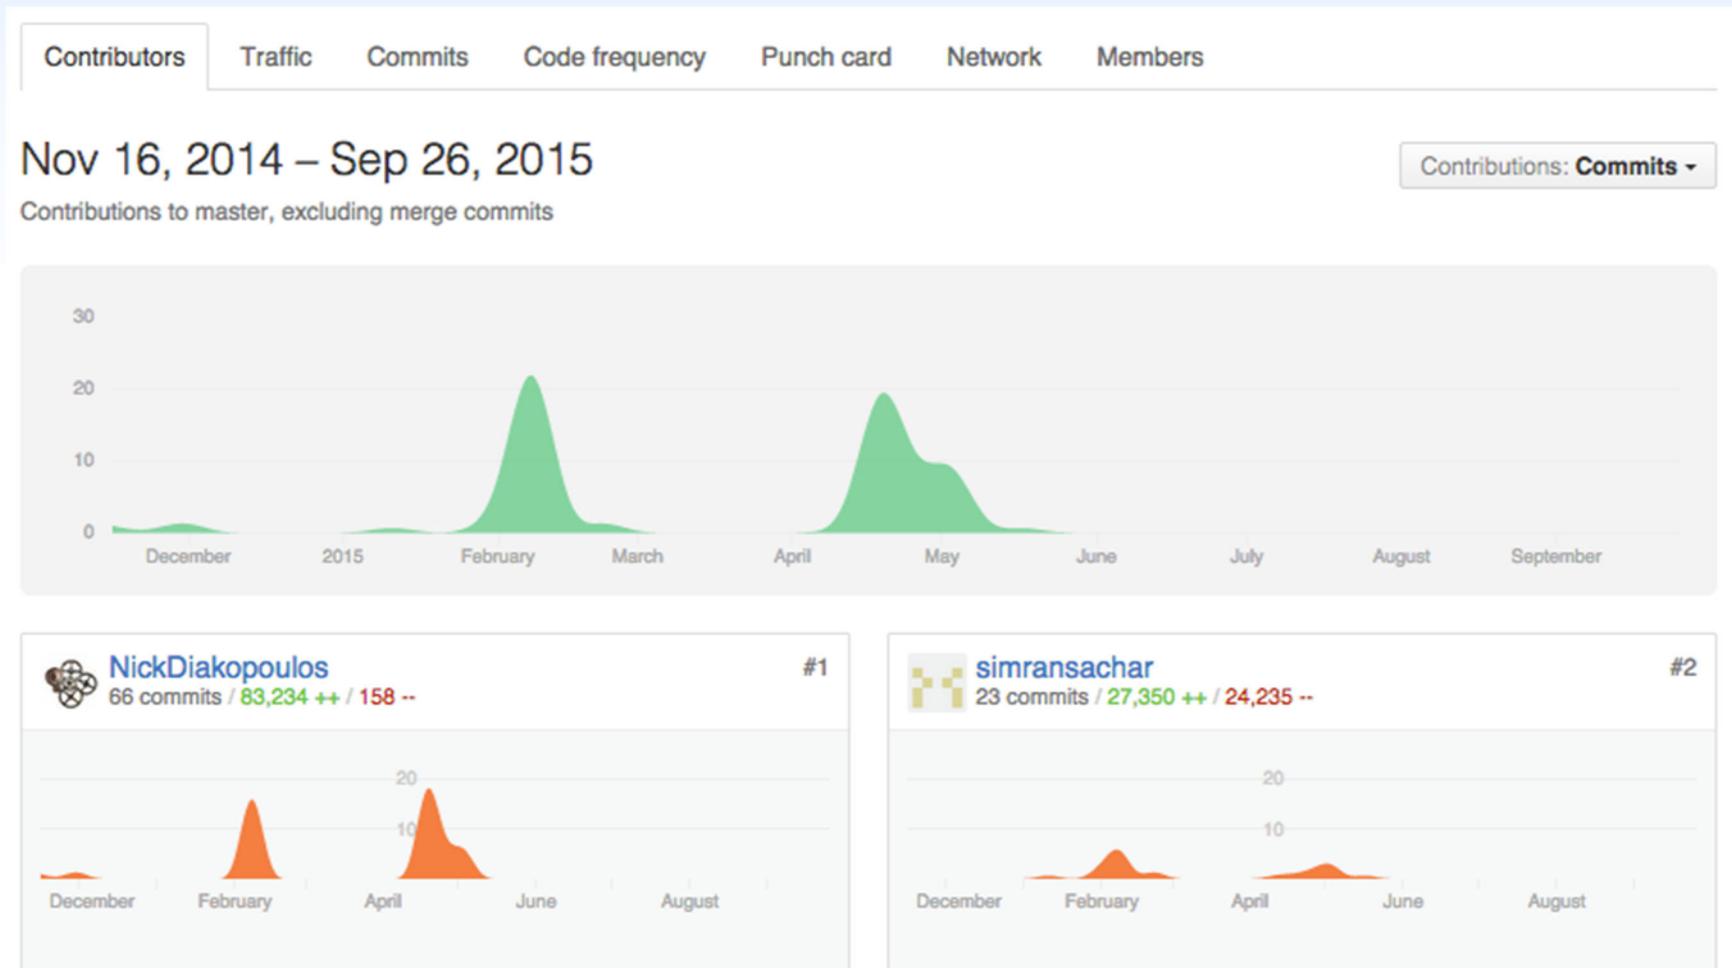

Design Considerations (continued)

- **Social Cues:** Emoji use varies across cultures

<http://www.scribd.com/doc/262594751/SwiftKey-Emoji-Report>

Design Considerations (continued)

- **Interruptions:** A GitHub dashboard charting project activity over time and indicating two users who are active in the project including their overall coding activity as well as volume over time
 - More details on activity are available by drilling into individual users

Design Considerations (continued)

I have to do it. I have to eat fried things. I have to have the deep fried haggis here along with my fish and chips. Why? Because yes, coming from the south of the USA, I understand you can deep fry a pizza or a Mars bar...but taking haggis and frying it into some kinda incredible offal falafel log is just a next level power-up maneuver.

Ok so this is a non-profit coffee shop/bar with artwork by Eno and others hanging behind the bar and friendly servers. I wish there was more than one small booth with a view of the bay but totally I'm a fan of what's happening here. Take time to look at all the artwork and installations because they are as fantastic as the food and drink here.

- **Trust and Reputation:** A user page on Yelp showing a variety of social activity context including volume of activity like reviews and photos, an “elite” badge, a graph of ratings previously made, feedback on the user’s reviews including if they were useful, funny, or cool, and other compliments
 - This rich information can help others understand the reliability of this user

Design Considerations (concluded)

The screenshot shows a comment from a user in Texas posted on September 11, 2013. The comment reads: "Say what you will about the Russians and Mr. Putin in particular. ... in peace with each other if only we would really try." It has 2196 recommendations. A yellow "PICK" badge is visible next to the comment, indicating it was selected by the New York Times编辑.
